RIGHT TO CONNECT

What is GoToMeeting?

GoToMeeting is a web conferencing and video conferencing platform designed for online meetings, webinars, and remote collaboration. It is widely used by businesses and organizations for professional communication and collaboration.

5 distinctive features: →

RIGHT TO CONNECT

1
**End-to-End
Encryption.**

GoToMeeting uses end-to-end encryption for both video and audio streams, ensuring that communications remain private and secure. This encryption helps protect data from being intercepted by unauthorized parties during transmission.

2

Meeting Locking and Administrative Controls

Organizers have the ability to lock meetings once all participants have joined, preventing any unauthorized access. Hosts also have control over participant permissions, such as the ability to mute individuals, disable screen sharing, or remove guests from the meeting.

RIGHT TO CONNECT

3

Secure Login and Password Protection.

Meetings can be locked with passwords, ensuring that only authorized participants can join. Additionally, users can implement multi-factor authentication (MFA) for added security when accessing their GoToMeeting accounts.

RIGHT TO CONNECT

4

Data Privacy and Compliance.

GoToMeeting complies with various data protection regulations and standards, including GDPR (General Data Protection Regulation) and CCPA (California Consumer Privacy Act). This adherence ensures that user data is handled in a manner that respects privacy and legal requirements.

RIGHT TO CONNECT

5
**Real-Time Threat
Monitoring and
Response.**

CYBER ATTACK
