RIGHT TO CONNECT

## What is WIRE?

Wire is a secure messaging and collaboration platform designed for both personal and professional use. It is known for its strong focus on privacy and security features.

5 distinctive features: →

RIGHT TO CONNECT

# 1 End-to-End Encryption

**Wire encrypts all communications end-to-end, including messages, voice and video calls, file sharing, and even synced content across devices. This ensures that only the intended recipients can access the information, providing robust security.**

RIGHT TO CONNECT

2

## Open Source and Regular Audits.

Wire's codebase is open source, meaning it can be independently reviewed and audited by the security community. This transparency ensures any vulnerabilities can be identified and patched, maintaining high-security standards.

RIGHT TO CONNECT

**Based in Switzerland and Germany, Wire adheres to strict EU General Data Protection Regulation (GDPR) standards. This provides added assurance regarding data privacy and regulatory compliance, as Switzerland has some of the strongest data protection laws in the world.**

**3  
European Data  
Protection  
Compliance.**

**RIGHT TO CONNECT**

## 4

### **Cross-Platform Support and Synchronization.**

**Wire is available on multiple platforms, including iOS, Android, Windows, macOS, and Linux. It offers seamless synchronization across devices, allowing users to maintain secure communications no matter which device they are using.**

RIGHT TO CONNECT

**5  
Business and Team  
Collaboration  
Features.**

**Wire includes features designed for business and team collaboration, such as secure file sharing, group chats, and conference calls. It also integrates with enterprise tools and provides admin controls for managing team permissions and access.**

RIGHT TO CONNECT

**RIGHT TO CONNECT**

**This pamphlet has been prepared by RTC.**

**RTC is a nonprofit organization dedicated to promoting a safer civic space. Our services and assistance support NGOs, human rights defenders, activists, and journalists.**

**To learn more about digital rights and cybersecurity, and to support our work, please visit our website and follow us on social media.**
